MINUTE OF THE ENVIRONMENT COURT  
(13 OCTOBER 2023)

---

[1] The Court has been provided with a master index for the common bundle and directs that there are additional documents that need to be available for the hearing.

[2] All external documents referred to in the conditions are to be available to the Court and other parties electronically at least two working days prior to the hearing.

[3] The Court makes this direction because without the incorporated material it is hard to know whether the conditions meet the requirements of being certain, workable, enforceable and clear on their face and not unlawfully delegate decision-making. Also from the Court's experience there is an issue with access to these documents given the limitations of copyright.

[4] Two hard copies of the relevant regional and district planning documents are
