We are always left out in the horse riding area. Its about time we all joined together to show support to get a trail to replace the trail that was so easily taken from us

This area desperately needs safe accessible riding paths! What a beautiful part of the country to have one, especially if links could be made for longer rides.

This Bridle path would also add value for locals with international guests....another activity to show case our region.

Just bloody do it

Great opportunity for horse riders to ride safely on undulating land, so they can learn to ride properly and appreciate our beautiful country. Nz equestrian is deteriorating due to riders not having access to great country to learn to ride on. We don't have riders taking over Mark Todd, Andrew Nicolson and Blyth Tate in eventing The international polo nz team 3 players over 40yr, Argentina 4 players under 30yr. I agree with it being a multi use track

Great idea, we lack facilities for equestrian
